Principal's Message

From Settling In to Moving Forward

It has been wonderful to see the Amity School Dubai campus come alive again after the summer break. Over the past week, our students have returned with enthusiasm, settled into their routines and begun reconnecting with the rhythm of school life. We have also had the pleasure of welcoming many new students into our Amity family, and it has been encouraging to see how warmly they have been received by their peers and teachers.

For our youngest learners in KG and Grades 1 and 2, these first weeks are an important part of the Foundation Stage journey. Establishing routines, developing independence, building relationships and creating a sense of belonging are as important as the academic learning that takes place in the classroom. These everyday experiences provide the foundations upon which confident and successful learners are built.

For students in Grades 3 to 12, the pace is already shifting towards a more focused academic phase as they prepare for and engage with their examinations. This is a valuable time for students to reflect on their learning, apply their knowledge and develop the habits of organisation, perseverance and self-discipline that are essential for academic success.

A new term is always an opportunity to begin again, but more importantly, it is an opportunity to build upon what has already been achieved. At Amity, we remain committed to creating an environment where academic rigour is balanced with wellbeing, curiosity and joy in learning. I look forward to seeing our students continue to grow, learn and make meaningful progress in the weeks ahead.

“One School. One Planet. Amity Leads.” Trees saved this week: 101.19 trees”

Curious Minds at Work

Our Pre-KG explorers set off on a week of fun, discovery, and learning!

In Mathematics, they counted to 10, explored numbers 1-5, and discovered rectangles and the colour black. In English, they had fun with the 't' sound, rhymes, beginning sounds, and pre-writing patterns. The favourite "Wheels on the Bus" rhyme brought learning to life. In EVS, children explored land and water transport and sorted vehicles by how they travel. Through playful, hands-on experiences, they built confidence, curiosity, and early thinking skills. Every little discovery was a big step in their learning journey!

Learning, discovering, and growing!

From sounds and stories to numbers and shapes, our KG1 learners were busy thinking, creating, and making connections! The story "The Marmalade Jam" inspired children to listen, recall, and share their own experiences with growing confidence.

They explored the 'r' sound, CVC words, the sight word 'we', and gender words while developing their early writing skills. In Mathematics, children discovered number bonds and the value of 0, while counting forwards and backwards to 99. They challenged their thinking by comparing numbers and exploring shapes and spatial relationships. A week full of stories, numbers, new discoveries, and confident little voices.

Growing Minds, Big Discoveries!

"Something from Nothing" sparked imaginations, inspiring children to listen, think, and express their ideas with confidence. Through the 'ng' sound, they played with words, strengthened phonics, and developed their reading and writing skills.

Maths became a challenge to solve as children explored subtraction, 2-digit numbers, and the link between addition and subtraction. EVS took them on a journey inside the human body, discovering bones, body parts, and the important work of our organs.

With every question, challenge, and discovery, our KG2 learners are becoming more confident thinkers and enthusiastic learners!

Do What You Love

This Wellness Wednesday, our students explored Meaning through the theme “Doing What I Love,” encouraging them to recognise their passions, celebrate what brings them joy and find purpose in everyday experiences.

Growing with Confidence

As Grades 1 and 2 begin their ECW journey, Grades 3–5 are engaged in their Term Assessments, demonstrating their learning, preparation and perseverance as they continue to strive for excellence.

Every Child. Every Talent. Every Opportunity to Shine

Every Child Wins (ECW) has commenced for Grades 1 and 2, creating opportunities for our young learners to explore their interests, nurture their talents, build confidence and develop skills beyond the classroom. At Amity, we celebrate every child's individuality and believe that every learner has an opportunity to shine.

Kindness Begins in Every Corridor

Our Anti-Bullying focus this Thursday centred on Hallway Manners, encouraging students to practise respect, kindness and consideration and contribute to a safe, positive and welcoming school environment.
