## Principal's Message

Dear Parents,

This week, students in Grades 3 to 12 are currently completing their End of Term Assessments. While these provide a valuable measure of academic understanding, their purpose extends beyond a final mark. They help students consolidate their knowledge, apply what they have learnt and take greater ownership of their development.

The outcomes will also enable our teachers to evaluate the effectiveness of classroom instruction and respond to each student's needs. Through careful analysis, teachers can adapt future lessons, address areas requiring further support and provide appropriate opportunities for extension.

For our younger students in Pre-KG to Grade 2, progress is observed through their daily participation, conversations, creative work and interactions. These experiences allow teachers to understand how each child is developing while encouraging a lasting enthusiasm for learning.

Maintaining high standards requires our staff to reflect continually on their practice. Through collaborative planning, professional dialogue and classroom observations, teachers share expertise and consider how lessons can be made more purposeful, inclusive and engaging.

At Amity School Dubai, we recognise that every child progresses differently. Academic success matters, but so do resilience, curiosity, independence and the confidence to learn from mistakes. These qualities prepare students not only for future assessments, but also for the opportunities and challenges ahead.

Families play an essential role in this process. During the assessment period, calm reassurance and recognition of consistent effort can be especially valuable. By focusing on improvement rather than marks alone, we help children develop a healthy and positive approach to learning.

Thank you for your continued partnership and trust. Together, we can ensure that every student feels supported, challenged and motivated to achieve their best.

Warm regards,

Kapil Chaudhary  
Principal | Amity School Dubai

## JOY Fest at Credence High School - Celebrating Creativity!

Our children had a wonderful time at JOY Fest, hosted by Credence High School. Inspired by the story "The Dot," they explored courage and creativity through fun dance sessions, hands-on craft activities, and engaging storytelling. Each child left feeling inspired to make their own mark, just like Vashti in the story. A joyful day of self-expression!

## KG2 Assembly - Celebrating Tolerance

Our KG2 friends shone bright during this week's assembly on Tolerance. Through songs, stories, and role-play, children explored kindness, acceptance, and celebrating differences. They learned that being tolerant means welcoming everyone, just as they are. Proud of our little global citizens for spreading love and understanding!

## Fun Learning Happening All Around!

This week, our little scholars embarked on a marvelous journey of discovery across every phase. Our Pre-K explorers delighted in the enchanting world of phonics, uncovering the melodious sound of "i" through songs, captivating stories, and imaginative picture hunts. Meanwhile, our budding EVS investigators explored air transport and emergency services, learning how vehicles such as helicopters and ambulances help keep our communities safe and connected.

And in KG2, our curious minds embarked on a sensory adventure, awakening their five senses through delightful hands-on exploration, discovering the wondrous ways their bodies help them experience the world around them. A truly splendid week of curiosity, courage, and celebration!

## Every Child. Every Talent. Every Opportunity to Shine.

As ECW moves into its second week, Grades 1 and 2 continue to bring energy and excitement to every session, with our young learners exploring their interests, discovering new talents and developing skills beyond academics. From creative and performing arts to sports, science and other engaging experiences, At Amity, ECW reflects our commitment to holistic education, where every child is encouraged to participate, grow in confidence and experience success in an area that inspires them.

## Growing with Purpose. Acting with Responsibility.

This Wellbeing Wednesday, our students continued their journey through the PERMAH model with a focus on Meaning through the theme "Being Responsible." Through discussion, reflection and their own Responsibility Promises, students explored how responsible choices at school, at home and within the wider community help build independence, trust and strong character.

## Respectful Journeys. Responsible Choices.

Our Thoughtful Thursday focus this week was Good Bus Behaviour, reinforcing the importance of respect, responsibility and consideration while travelling to and from school. Students reflected on how their behaviour contributes to the safety and comfort of everyone around them and how thoughtful choices can help create a positive environment beyond the classroom.
